SERVE THE PASSENGERS.

Manned the Boats and Rowed Away
Leaving the Others to Die by Fire—
Russia and China Sign the Commer-
cial Treaty—Massacre Story Con-
firmed—Cable News.

St. Malo, France, June 11.—The
crew of the British vessel "Why Not?"
deserted the ship while it was burning,
leaving the passengers to perish in the
fire.

St. Petersburg, June 11.—The com-
mercial treaty between Russia and
Japan has been signed.

Shanghai, June 11.—The report of
the total destruction of the missions of
Cheng Tu, Kiating and Yachohu has
been confirmed. The local officials
refused protection to the missionaries
until the mob had completed the work
of demolishing the buildings. The mis-
sion stations at other places have been
threatened. About twenty adults, be-
sides a number of children, have taken
refuge at Cheng Tu and Yamen-Viceroy
Lin is blamed for the affair.

London, June 11.—The news of the re-
ported massacre of the English, French
and American missionaries at Cheng Tu
has created great excitement in this
city. Up to a late hour no definite ad-
vice had been received. There are
many English missionaries in China and
letters from them have for some time
contained intimations of an expected
outburst of anti-foreign sentiment in
interior cities. The meager dispatches
thus far received indicate that not only
the missionaries, but the women and
children at the mission houses were
killed. There are fears that other mis-
sions will be attacked.

NO NEWS AT WASHINGTON.

Chinese Legation Not Informed of the
Reported Rioting.

Washington, June 11.—Yesterday state
department officials, after investigating
the reports of the Chinese massacre,
said that they thought an error had
been made in the transmission of the
name of the place where the massacre
is said to have occurred. It is believed
that this name instead of Cheng Tu
should be Cheng Te, the capital of Hu-
nan. In this place there are a number
of foreign missionaries, and the anti-
foreign feeling is very strong. In 1893
there were threatening demonstrations
by the people, and the missionaries were
kept for some time in a state of terror
by the display of placards abusing the
"foreign devils" and warning the na-
tives against affiliation with them. The
condition of affairs was regarded by
United States Minister Denby as grave
enough to warrant representations to
the Chinese government and the facts
were made the subject of several re-
ports from the minister to the state
department. Cheng Te is accessible to
small gunboats and a British warship
visited the neighborhood years ago. The
Chinese legation has received no in-
formation as to the reported massacre
of all missionaries in Cheng Tu or
Cheng Te, and strong hopes are enter-
tained that the affair may be less se-
rious than the meager reports indicate.

House of Commons in Session.

London, June 11.—The house of com-
mons reassembled yesterday and the
parliamentary secretary for the for-
eign office, Sir Edward Grey, introduced
a bill to regulate the catching of seals
in the Bering sea. In so doing he ex-
plained that the bill was designed to re-
place the act passed in 1893 to carry out
the agreement with Russia, and that
there would be a few alterations. The
bill passed its first reading.

Want England to Act.

London, June 11.—The Press associa-
tion states that leading English politi-
cians have intimated to the members
of the Rosebery cabinet that the min-
isters will be supported by the public
opinion of the country if Great Britain
join with the other powers in a display
of force as a reply to the attitude of
the Turkish government in regard to
the proposals for the powers for the re-
form of Armenia.

Hundreds May Be Killed.

Breslau, June 11.—The Segingolten
mine, belonging to Count von Donners-
mark, is on fire. Out of the 400 miners
at work when the fire broke out only
forty reached the surface in safety. The
fate of the other miners is not known as
this dispatch is sent, but a terrible dis-
aster is feared.

WARCLOUDS ROLLED AWAY.

All Danger of a Conflict Between Nic-
ragua and Costa Rica Past.

Guatemala, June 11.—Several small
risings have been reported within the
last few days in different parts of Sal-
vador. Troops have been sent to the
frontier to preserve order. The danger
of war between Nicaragua and Costa
Rica is past.

San Salvador, June 11.—A courier
from Santa Tecla reports a rising there
among the Coljutpeque Indians, the
dread of the entire country near Santa
Tecla. Fighting lasted from daylight
till noon and was still on at latest re-
ports. General Regalado has gone
from Santa Ana to reinforce General
Rivas. So far all attempts to re-es-
tablish telegraphic communication have
failed.

An Trial for Killing Scott.

O'Neill, Neb., June 11.—The case of
Mullihan, Elliott, Roy, Harris, Oberle,
Pinnerman and Stanton, charged with
the murder of Barrett Scott, was called
up in the district court at Butte, Boyd
county, on the beginning of this term
of court and the trial set for June 13.
Judge Kinkaid will preside. It is rum-
ored here that the defendants will ask
for a change of venue if they think
there is any chance of having the case
sent to this county for trial.

FRUIT CROP OF 1894.

Season Was Peculiarly Disastrous and
Unprofitable in Most Lines.

Washington, June 11.—The review of
the fruit condition of the country for
1894 by the pomologist of the agricul-
tural department characterizes the sea-
son as peculiarly disastrous and un-
profitable in most lines of fruit culture.
In the east and south the result was
largely due to unfavorable climatic con-
ditions. Fair fruit crops were harvest-
ed, however, in the New England, mid-
dle Atlantic and lake states, and in
portions of Missouri, Kansas and Ne-
braska. West of the Rocky Mountains
there was an abundant yield, but losses
due to the paralysis of freight traffic
during the railroad strikes in June and
July, together with the low prices
caused by the prevailing industrial de-
pression, resulted in very low net re-
turns to the growers and shippers of
that region. The year was character-
ized by exceptional extremes of heat
and cold, drought and moisture in dif-
ferent sections.

TO STOP FILIBUSTERING.

United States Revenue Cutter to Patrol
Coast of Florida.

Washington, June 11.—The announce-
ment that the United States steamer
Raleigh would be ordered to the Florida
coast for the purpose of co-operating
with revenue cutters to prevent filibus-
tering expeditions destined for Cuba
from our shores was officially confirmed
yesterday by the promulgation of orders
directing the cruiser mentioned to pro-
ceed to Key West at the earliest prac-
ticable moment. The sudden activity
in the direction of preventing filibus-
tering is intended more for the purpose
of demonstrating to Spain a desire on
the part of this government to obtain a
careful observance of its neutrality laws
rather than with any expectancy of
making captures. By its action the ad-
ministration hopes to convince Spain
the United States is thoroughly in earnest
in its desire to carry out the prin-
ciples laid down by the Alabama Claims
commission.

Illinois Lutherans in Session.

Chicago, June 11.—The second day's
session of the annual meeting of the
Illinois district of the Evangelical Ger-
man Lutheran synod was attended by
nearly 500 ministerial and lay delegates,
representing every German Lutheran
church in Illinois yesterday. The
conference was presided over by Rev. H.
Succop of St. Paul's church of this city.
One thousand dollars each was given
to the boards of home missions, foreign
missions, and church extension. One
thousand dollars was received from
Lutheran Publication society. Loans,
donations and special appropriations
have been made to 127 congregations
amounting to \$80,741.

Twenty Houses Blown Down.

Perry, O. T., June 11.—A tornado vis-
ited the section twenty miles west of
here Sunday night. Twenty houses
were said to have been blown down and
several persons were hurt. Mrs. Ham-
mer, a widow, fatally. The course of
the storm seems to have been from
southwest to northeast. It passed be-
tween the lines of this and Garfield
counties and passed into Kay county.
Owing to the fact that there are no
telegraph facilities it is impossible at
this time to get a full report.

Ohio Miners Accept 51 Cents.

Columbus, Ohio, June 11.—The vote of
the Ohio miners upon the proposition
of the operators to pay 51 cents for
screened coal per ton resulted: For ac-
ceptance, 5,091; against, 4,351. Sec-
retary McBryde of the National associa-
tion says the Ohio miners acted wisely
in accepting the offer of the operators,
and if the Pittsburg miners will do as
well they will be in a position to take
an advanced step by the time the fall
trade opens.

Condition of Wheat.

Washington, June 11.—Acreage, 96.1
per cent; condition, winter wheat, 71.1
per cent, against \$2.9 May 1, condition
reported was \$3.2. Spring wheat shows
average whole country, 97.8 per cent;
average percentage of all wheat is 97.1.
The percentage of spring wheat for en-
tire country, 99.5.

A BIG FIRE RAGED
AT SOUTH CHICAGOLOSS WILL BE \$250,000 PAR-
TIALY INSURED.

Blaze Started in the Calumet Furni-
ture Company's Store at an Early
Hour This Morning—Round House
at Arkansas City Destroyed—
Losses at Milwaukee.

Chicago, June 11.—A fire started in the
rear of the Calumet Furniture com-
pany's store in a two-story frame build-
ing in Ninety-second street, near Hous-
ton avenue, South Chicago, early this
morning and spread rapidly to adjoin-
ing buildings, both east and west, and
to Houston avenue. Six buildings are
a total loss and it will cost \$60,000 to re-
place them. In addition to these, sev-
eral small business houses adjoining
the burned buildings were partially
damaged by fire, smoke and water, the
total of which will sum up \$20,000 more.
Though the fire broke out at an hour
when many persons were asleep in the
buildings, fortunately no one was in-
jured. It was one of the biggest fires
which have visited South Chicago since
the big lumber yard fire during the
World's Fair year. It is impossible as
yet to get any estimate of the insurance
but most of the losses are partially in-
sured. It is estimated that a quarter of
a million dollars is the full loss.

ARKANSAS CITY IN DANGER.

Santa Fe Shops Burning and the Fire
May Spread to Residences.

Arkansas City, Kan., June 11.—At 1
o'clock this morning the Santa Fe
roundhouse and repair shops in this
city with all their contents took fire.
The greatest excitement prevailed, as
the volunteer fire department was to-
tally unable to cope with the flames,
and it was feared they would spread
to the residence district. No one knows
how the fire caught. There were ten or
fifteen engines in the roundhouse, and
the best estimate that can be made dur-
ing the excitement is that the loss will
be from \$100,000 to \$150,000.

Losses by the Milwaukee Fire.

Milwaukee, Wis., June 11.—The list of
losses by Sunday night's fire, which ag-
gregate \$83,200, is as follows: B. Uhrig
& Son, \$40,000; Foster Lumber Com-
pany, \$25,000; Schlitz Brewing Com-
pany, \$10,000; Brodresser Manufactur-
ing Company, \$4,000; steamboiler Ral-
ph, \$2,500; schooner Lucy Graham,
\$1,000; Henry Gallun tannery, \$500;
Charles Stehling, \$100; Skobis Bros.,
\$100. It is believed the fire originated
from sparks from the pipes of some
sailors who were smoking in the shingle
shed of the Foster Lumber Company.
Sixteen horses of the lumber company
were roasted to death. The whole tan-
nery district was threatened, and it was
only saved by the good work of the fire
department.

Two Thirds of the Town Burned.

Cameron, W. Va., June 11.—The esti-
mates of the loss by fire here made yester-
day are entirely inadequate. The
standing property of the town was
worth \$450,000, and the latest itemized
list of the loss foots up over \$300,000.
The insurance is only \$50,000, of which
\$30,000 is in three Wheeling companies.
Fifty-two houses were burned before
the fire finally spent itself. The home-
less families are being cared for by
those who were fortunate enough to be
outside the path of the fire.

Fear Gold Exports Again.

Washington, June 11.—The high point
reached last week for sterling exchange
—the highest for many weeks—causes
treasury officials to fear that gold ex-
ports may be shortly resumed. At the
present rate of exchange, 4.89@4.90,
many millions of gold were exported
last spring. The Belmont-Morgan syn-
dicate has so far been able to prevent
gold exports, but their contract to pro-
tect the treasury gold reserve is now
nearing an end and an unusual scarcity
of commercial bills is reported.

English Crops Killed.

New York, June 11.—Ex-Congressman
Frank Jones of Portsmouth, N. H., has
just returned from a tour of England.
"I drove through the English farming
districts," he said, "and I found that a
late frost had killed the crops there.
The result will be to make a market in
England for American wheat and grain,
which will bring good times to the
western farmers."

More Earthquake Shocks.

Trieste, June 11.—The population of
this city was thrown into a terrible
panic early this morning by two severe
earthquake shocks. The people rushed
in terror into the streets and camped
out until the panic subsided. No dam-
age was done, however.

Every Saloon Closed.

Des Moines, Iowa, June 11.—Every sal-
oon in this city has just been closed
by order of Judge Spurrier, of the dis-
trict court. The judge holds that the
consent statement lacked sufficient sig-
natures to entitle the saloons to the
bar feature of the mulct law. An ap-
peal will be taken immediately.

Italian Deputy Killed.

Rome, June 11.—A dispatch received
here from Rimini announces that Sig.
Ferrari, who was recently elected a
member of the chamber of deputies, de-
feating the socialist candidate in his
district, and who was shot by unknown
men during a dispute on Monday a
week ago, is dead.

Explosion in an Icehouse.

Columbus, Ohio, June 11.—The explo-
sion of the purifier of the Crystal Ice
Company killed Fletcher Sells, engi-
neer, destroyed several thousand dol-
lars' worth of property, and placed in
jeopardy \$50,000 worth of stock in cold
storage.

A GREAT BALL GAME
IS ON AT BELOITROCKFORD AND LINE CITY PRO-
FESSIONAL MEN MEET.

The Game Is a Closely Contested One
and Immediately After It All the
Able Bodied Survivors Will Daily
With a Banquet—Many Weddings
Are in Prospect.

Beloit, Wis., June 11.—[Special]—
The professional men of Beloit and
Rockford are battling with each other
on the base ball diamond this after-
noon. Both cities have strong teams,
and the chances are that Beloit will
win back the laurels dropped to Rock-
ford a year ago. A grand banquet
has been prepared for the visitors,
which will be served immediately
after the game at the Hotel Goodwin.
The proceeds of the game will be do-
nated to the Young Woman's Friendly
association. A large crowd is witness-
ing the sport.

Many Weddings in Prospect.

Beloit, June 11.—The marriage of
of Alderman Joseph A. Janvrin to
Miss Josie Brenton, of Darand, Ill.,
occurs tomorrow night.

William Werrick, a popular cloth-
ing clerk, will be married to Miss
Carrie Harris, a pretty stenographer,
at the home recently purchased by
them, tomorrow night.

S. H. Smiley, one of Beloit's promi-
nent grocers, will be married to
Miss Lizzie V. Nichols, June 18.

LAND SAFE IN CUBA.

Expedition from Florida to Help Cubans
Has Arrived.

Key West, Fla., June 11.—It is known
that the expedition that left this coun-
try Wednesday night landed in the pro-
vince of Las Villas, near Sagua La Chica,
Cuba. The expedition was under
the command of Gen. Roloff. Immedi-
ately upon landing the party was joined
by 2,500 insurgents, under command of
Zayas, Castillo and Reyes. Among the
filibusters was a surgeon, Valdes Do-
minguez. The party carried 500 pounds
of dynamite.

It is rumored that fourteen Ameri-
cans accompanied the expedition and
also an expert telegraph operator, a
civil engineer and a powdermaker. The
vessel that carried the expedition,
though not a warship, was prepared to
show fight in case it was stopped by
any Spanish gunboat. It was undoubt-
edly the best-equipped expedition that
has left the states in the cause of Cuban
liberty.

MURDERER AT THE AGE OF FOUR

Little Gilbert Bowsher Kills a Child Who
Refuses to Speak to Him

Lafayette, Ind., June 11.—Indiana has
a youthful murderer in Gilbert Bow-
sher, 4 years old, who killed Bernice
Collins at Monticello, his victim being a
toddling infant of 2 years. Bowsher,
who was in company with two other
boys, passed Bernice Collins on the
street. The latter spoke to Bowsher's
companions, but refused to notice him.
This angered young Bowsher and, lying
in wait for the Collins child, he attacked
her with stones, and before her piteous
cries for help brought relief she was
dead. The authorities are puzzled as to
what steps to be taken in dealing with
the boy, the annals of the state failing
to record a parallel case. Both families
are prominent.

HERDERS FLED FOR LIFE.

Drove the Flocks Out of Colorado When
the Army Approached.

Denver, Col., June 11.—Word comes
from Camp Baker that when the cat-
tlemen reached that point, the strong-
hold of the sheepmen, they numbered
800, and formed a line down the valley
one mile long. On their approach the
sheep herders fled for their lives, and
when the flag of truce was sent in by
the cattlemen the few remaining of-
fered to agree to any terms, which
were that they must take the sheep out
of the country immediately. The lead-
ers of the cattlemen had the greatest
difficulty in keeping a number of their
force from slaughtering about 2,000, and
it was not until they saw the herds
were moving north that they became
calmed and refrained from carrying
out their threat.

Fight Nearing the End.

Providence, R. I., June 11.—The fight
between the operatives and manufac-
turers for nearly two months at the At-
lantic mill, and half that time at the
other mills in Olneyville, is appar-
ently nearing its end. It is estimated
that 2,000 employees have left Olneyville
since the fight began. Two hundred
and twenty-four looms are now run-
ning at the Riverside. At the National
mills the final stand of the strikers
is evidently to be made. The strike lead-
ers assert that they can continue the
fight here indefinitely.

Woodward Joins the Rebels.

New York, June 11.—A special from
Key West, Fla., says: "Woodward, the
American correspondent reported as
killed, finding it impossible to get back
from the insurgents' lines, has joined
the insurgents. It is now said, and has
been given command of a company un-
der Maceo. The man killed is now re-
ported to be one Boynton, who was
trying to sell a dynamite machine to
the insurgents, which he offered for
\$20,000."

Iron Molders to Meet.

Cleveland, O., June 11.—It is officially
announced that the international con-
vention of the Iron Molders' union will
be held in this city, commencing July
19. Vice President Valentine intimated
that the big molders' strike, which was
expected to take place here this week,
had been postponed until after the con-
vention.

ATTORNEY GENERAL SWORN IN

Mr. Harmon Took the Oath of Office This
Morning.

Washington June 11.—Attorney Gen-
eral Harmon took the oath of office
this morning, the obligation being ad-
ministered by Justice Harlan.

MANY TRAMPS ARE ROASTED.

Burned to Death in a Freight Train at
Kane, Pennsylvania.

Kane, Pa., June 11.—A freight
train was burned on the Philadelphia
& Erie road this morning and a num-
ber of tramps were burned to death.

ISH ADMITS KILLING CHAPPELL
The True Story of the Murder at Omaha
Comes Out.

Omaha, Neb., June 11.—Develop-
ments in the Ish murder case indicate
that James Ish, and not his wife shot
Chappell at the Ish residence Sunday
evening. When Ish was told that
people generally believed that he did
the shooting he asked: "Can they
blame me for doing it? My God! I did
not know that my wife was untrue to
me until Saturday."

He was asked: "Did you send the let-
ter to Chappell which brought him to
your home or did you find him in a
compromising position with your
wife?"

"I did not know of any letter," he
answered. "I did not send any letter
to him, and no one can blame me for
what I did. My God, I am not to blame
because she was untrue to me. I told
the story I did to save her reputation,
and I did it to save her."

As Ish related it, the story of the
crime is this: When Chappell came to
his house at the remarkable time he did
to fix the sewing machine Ish was sat-
isfied that he had come to meet Mrs.
Ish. Afterward when Ish left the room
to go downstairs he went only part
way, returning immediately. Looking
into the room he saw the man appar-
ently attempting to kiss Mrs. Ish, they
being in each other's embrace. He fired
the shot that took effect in the back of
Chappell's head. In falling Chappell
attempted to use his own revolver, but
the shots went wild. As Chappell lay
on the floor Ish fired half a dozen more
bullets into his body.

Mrs. Ish ran out into the kitchen and
excitedly told the first comer that she
had killed the man for assaulting her,
and on her entreaty to save her reputa-
tion Ish corroborated her story.

Officers informed Mrs. Ish that her
husband had confessed. She broke
down completely and said to Police Ma-
jor Cumming:

"Why did he tell this? It is true that
Jimmy fired the shots. We had fixed
up the story and had agreed that we
would swear that I fired the shots. We
thought that I could get out of it bet-
ter than he."

New facts discovered go to show that
Chappell and Mrs. Ish had been inti-
mate for several months and it is con-
clusively shown that on the morning
preceding the murder Ish was search-
ing for the man who was afterward
killed at the Ish cottage. Preliminary
hearings takes place this morning.

Want a Christian Nation.

Denver, Colo., June 11.—The synod
of the Reformed Presbyterian Church
of North America yesterday adopted
resolutions in favor of changing the
constitution of the United States by
inserting "A clear and explicit ac-
knowledge of Almighty God as the
source of all power; of Jesus Christ as
the prince of kings of the earth, and
the bible as the supreme rule in all
affairs." The Rev. J. C. McFeeters of
Philadelphia, Dr. H. H. George and
other speakers declared the country's
financial troubles were due to the fact
that the supreme power of God was not
acknowledged in our constitution, and
all existing political parties were in a
state of dissolution because they were
not founded on the firm corner stone
which such an acknowledgment would
be.

Miniature Minnesota Deluge.

St. Cloud, Minn., June 11.—Reports
have been received from Jaynesville
of the heaviest storm in that vicinity for
ten years. Lightning struck the Epis-
copal church early Sunday morning.
The tower was badly shattered and the
church damaged in three places to the
extent of \$300. The Richmond depot and
a big windmill at the same place were
damaged. Rain fell in torrents from
midnight Saturday till nearly noon Sun-
day. The fields looked like lakes. There
was no damage to crops.

Cutting Down the Expenses.

Topeka, Kas., June 11.—Hoke Smith,
secretary of the interior, has ordered
George W. Glick, pension agent in this
city, to reduce the expenses of his office
\$5,000 per year. To do this the salaries
of clerks will be reduced from \$100 to
\$300 annually, and a number of them
will be discharged. It is understood at
the pension office here that the order
is made to reduce the expenses of the
government and that similar reductions
will be made in other departments.

Student Ohl May Die.

Princeton, N. J., June 11.—Frederick
Ohl, the student who was shot by the
negro Collins Saturday night, is re-
ported by his physician to be in a critical
condition. Cochran, who was shot in
the mouth, is resting quietly and will
probably live. The shooting has sad-
dened the commencement. The college
is aroused against the negro element,
and the proctors are keeping them off
the campus. A boycott will probably
force several hundred waiters and
cooks out of employment.

Will Sue Sterling Morton.

Warsaw, Ky., June 11.—I. T. Cham-
bers, a leading peach grower, will sue
the United States agricultural depart-
ment at Washington for heavy dam-
ages. In order to stop the ravages of
the borer, a warm that attacks peach
trees, Mr. Chambers wrote to the of-
ficials at Washington. Those profes-
sional farmers recommended a paint
composed of London purple, linseed oil
and carbolic acid. He put the govern-
ment-indorsed paint on his trees. They
are all dead.

MILLS MAN.

Cold Water Thought to Have Brought
On An Attack of Heart Disease—
Dorchester Farmer Drowns—Four-
teenth Regiment Veterans Meet At
Fond du Lac—State Specials.

Lake Mills, Wis., June 11.—[Speci-
al]—Milton Freeman fell dead while
in bathing last night, and his death
was a most peculiar one. Freeman
and a number of companions were in
bathing together, and the water was
rather cold. He waded into the stream,
and suddenly threw up his arms and
sank from sight. His companions were
close at hand, but could do nothing to
help him. He was not drowned, but
died of heart disease, the result, sup-
posedly, of his wading suddenly into
the cold water.

Dorchester, Wis., June 11.—[Speci-
al]—Gustav Bushmann, a prominent
young farmer, was taken with cramps
while bathing in Chelesea Lake, and
drowned before help reached him.

Reunion at Fond du Lac.

Fond du Lac, June 11.—[Special]—
The eighth annual reunion of the
Fourteenth Wisconsin Volunteer In-
fantry opened at this city today, and
promises to be an unusually large
gathering. The session will continue
until Thursday, and many veterans
are present from all parts of the state
and the west.

Whitcap Revelations Promised.

Hudson, June 11.—[Special]—Eight
alleged whitcaps from New Rich-
mond were brought here and ar-
raigned in court. All waived exami-
nation and were bound over for trial
under heavy bonds. Several sensa-
tional features are expected to develop
before the case is ended.

The common council chamber was a regular sweat box last night and the alderman hurried the business through in order to get into fresh air. It was decided that license money must be paid in a lump; Stewart & Cullen were the successful bidders on the Jackson street bridge repairs; the report of the Fifth avenue arbitrators gave C. J. Schottle \$250 damages; the Pleasant street sewer was reported as completed; George M. McKay, F. E. Fifield and John T. Wilcox were appointed to appraise the damage on the Zull building, W. Milwaukee street permission was given Thomas Bowles and others to construct a sewer in East Milwaukee street; an ordinance was passed under suspension of rules, amending the fire limit ordinance and prohibiting the erection of wooden buildings in certain districts. Mayor Baines presided, all the alderman being present except Alderman Heddles, who is now in Europe. City Treasurer Fathers' report for May was referred to the finance committee. The specifications for repairing Jackson street were read and referred to the committee on highways, streets and bridges.

Sewer Is Finished.

A communication was read from F. C. Burpee notifying the council that the Pleasant street sewer had been completed, and that the total cost to the city was \$211.43 as follows: Fifty-one feet of 21-inch sewer from the northeast corner of the high school to center of street, at 25¢ per lineal foot, \$12.50; cost of building from center of street to Jeffers sewer, 150 feet, 10 inches of sewer at 29¢ cents, \$43.50; additional for connection \$150, making a total of \$211.43. The report was referred to the highway and bridge committee, who asked for further time to report. Granted.

A communication was read from William Zull, owner of the property recently destroyed by fire, just east of the Ground hotel, stating that he desired to repair the buildings, and requesting the mayor to appoint a commission of three disinterested parties to examine and appraise the damage. The mayor appointed George M. McKay, F. E. Fifield and John T. Wilcox, who were confirmed.

The bond of Ryan & Brown, contractors, for repairing Milwaukee street bridge, was approved.

A communication from the chief of the fire department, in relation to the arrest and conviction of Thomas Mulcahrs for turning in a false alarm of fire, was referred to the fire and water committee.

C. J. Schottle To Get \$250.

The report of the arbitrators, appointed to appraise the damage that would accrue to C. J. Schottle on account of the regrading of Fifth avenue, was presented and placed on file. The arbitrators give Mr. Schottle \$250.

On motion of Alderman Hemming the specifications for repairing Jackson street bridge, were adopted, and the clerk reported that he had received four bids for repairing the same. On motion of Alderman Kothman, the clerk was directed to open the bids, which were:

Ryan & Brown.....\$2,084.00
John Martin, of Oshkosh.....1,940.00
Nowlan & Peters.....2,500.00
Stewart & Cullen.....1,848.00

On motion of Alderman Kothman, a contract was awarded to Stewart & Cullen, their bid being the lowest. Alderman Hemming desired further time for the highway committee to consider the matters in relation to the Pleasant street sewerage contract, which was granted.

Alderman McLean introduced an ordinance amending the ordinance in relation to the fire limits, which prohibits the erection of wooden buildings on East and West Milwaukee street between Division street on the east side and Academy street on the west side, and on North and South Main street between Fourth avenue and South Second street. The rules were suspended and the ordinance was adopted.

Must Pay All the License Fee.

Alderman Sutherland of the license committee, submitted the following report, which was adopted:

The committee on licenses, having under consideration the petition of certain citizens with reference to the payment of license money, report as follows:

**Awarded
Highest Honors—World's Fair.**

**DR. PRICE'S
CREAM
BAKING
POWDER**

MOST PERFECT MADE.
A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.
40 YEARS THE STANDARD.

Licenses for the sale of liquor are granted under the provisions of the general laws of the state. Section 1548 of the Revised Statutes provided, among other things, that no license shall be delivered until the applicant shall produce and file with the clerk a receipt showing the payment of the sum required therefor to the city treasurer.

Under the law the clerk can only deliver the license upon the production of the treasurer's receipt showing the payment of the sum charged for the license, and the treasurer can only issue his receipt upon such payment to him. The council can do nothing to change these conditions. Any ordinance or resolution we might pass would be illegal and invalid if it sought to vary the provisions of the statute.

It is therefore the judgment of the committee that the council is powerless to grant the prayer of the petitioners.

They Can Build The Sewer.

Alderman Burnham introduced an order giving permission to Thomas Bowles, Jonathan Fellows, Louise Peterson, Angelette Morse and Mrs. C. W. Hodson to lay a 12-inch sewer from the intersection of Wisconsin and Court streets to the intersection of Wisconsin and Milwaukee streets, and thence to the east end of the sewer heretofore laid in Milwaukee street by Fred R. Jones and others.

Alderman Burnham stated that this sewer would be built in accordance with the Loweth plans. The order was adopted.

Alderman Burnham desired that the attention of the health officers be called to the condition of the sewer in East Milwaukee street, belonging to the Myers estate. There was an offensive odor caused by this sewer near its outlet, and thought it should be attended to.

Before adjourning Mayor Baines stated that at the next meeting of the council, Monday evening, June 17, the amendments to the city charter would be considered, and as it required a two-thirds vote of the council to adopt these amendments, he desired that all the members be present.

BRIEF BITS OF LOCAL NEWS

Mrs. M. ABBEY, the expert food specialist, representing the well-known Chicago grocery house of Sprague, Warner & Co., will be in the city for two weeks. Mr. F. G. Loomis the agent for the house authorizes the Gazette to say that churches desiring the services of Mrs. Abbey can secure their coffee, biscuit etc., donated. This ought to be an inducement for church socials or entertainments where lunches are served.

HOT GAME OF BALL AT MILTON TOWN

MILTON NINE WON THE GAME
BY HARD WORK

And For That Reason the Pockets Of
the Miltonites Bulged With the Cur-
rency of the Realm, While the
Clintonites Nearly Had to Walk
Home—County News.

MILTON, June 11.—Friday the Clinton "Greys" and "Miltons" played the return game here and it was the most exciting game of the season. Clinton came with an aggregation of imported talent, representatives of Sharon, Madison and Beloit assisting Clinton. The sports came along with their bundle of wealth and at the close of the game it rested quietly in the jeans of Miltonites. Clinton "Greys" had return tickets, which alone relieved them of the necessity of walking home. The game was a corker. At the close of the first half of eighth inning the "Greys" had 7 to "Miltons" three, but the latter batted out six runs in their half and won the game by a score of 9 to 11. Milton got a basket of five goose eggs and applied the calcimine brush to Clinton in six innings. Milton has made the following proposition for the deciding game: The game to be played in Janesville, a Janesville man to umpire, each club to put up a ten dollar forfeit, winner to take sixty per cent of the gate receipts and the players to be taken from among those who have played in the preceding games. Carload shipments from this section last week included three of oats, one of corn, one of barley and one of hay. Carload receipts, two of lumber and two of leaf tobacco. Dr. G. W. Post, of Chicago, performed three surgical operations while in town last week. The most important was the case of Mrs. Koch, of Fielding, Ill., in which he was assisted by Drs. Burdick and Maxson and minor operations on E. Palmer and H. C. Gould, in which he was assisted by Dr. Burdick. W. P. Clarke was notified to appear in Madison yesterday, as a juror in the United States circuit court, but he visited the judge Thursday and got excused on the plea that he was a pharmacist. U. S. Griffin of Nortonville, Kansas, enjoyed several days in town this week. He spent some time here as a student twenty years ago. Babcock has finally got settled in his new shop at the mill. J. M. Millard who has been spending some time at Walworth is at home again. The heading "The Old Story" can hardly be called a drawing card. T. C. Duncan, M. D. of Chicago, was a guest of Pres. Whitford recently. The doctor was a student here before the war. Miss E. M. Tomkins of the Merrill high school, is at home to enjoy her summer vacation. The roads were full of cyclists Sunday. Mrs. A. B. Lee has been the guest of Madison friends. Miss Grace Milair will deliver an oration at the session of the Iduna Lyceum Thursday evening, June 20. Her subject is "Veiled in Mystery."

FOOTVILLE HENS ARE STOLEN.

Norman Curry's Coop Was Despoiled of
the Whole Flock—Other Items.

FOOTVILLE, June 11.—Norman Curry lost his entire lot of hens last week except one old "biddle" who chanced to be setting and was overlooked by the thieves. It is time something was done to stop this lowest of all stealing. Mrs. Sarah Coleman of Fort Dodge, Ia., has returned home after visiting her uncle, D. W. Pepper. A few fields of tobacco have been set and are looking well. Miss Anna Garlick was greeting old friends Friday last. Home-grown strawberries are now on the market. The late frosts did not damage the crop as much as was at first feared. The farmers and every one else are hoping for rain. Pasture land is in great need of a long downpour. Mrs. D. W. Howell who has been confined to the house is gaining fast and her friends rejoice in consequence. Her daughter, Mrs. Tollison, has been in attendance and given her the best of care. Children's day at the M. E. Church was observed June 9. The children all did well and everything passed off well. Mr. Vesper is Sunday School superintendent. Miss Nellie Cary is quite sick. Dr. Chittenden is attending her. Mr. and Mrs. James Pepper rejoice over the arrival of a ten pound boy.

North Johnstown News.

NORTH JOHNSTOWN, June 11.—The concert and ice cream social given by the Woman's Mission society was a grand success. They gave a good program to a large crowd and cleared over twelve dollars. Next Sunday is Children's day at the F. W. B. church for which a fine program is in preparation. The children will take the front seats on that day and the meeting will be under the direction of the superintendent, E. C. Carey. The regular church services are at 12, 10 or 10:30 o'clock Sunday morning. Mrs. E. L. Cary will lead the young people's meeting next Sunday evening. C. W. Bullock and wife went to Janesville last Saturday on business. Come to North Johnstown next Sunday at 11 o'clock and enjoy a pleasant hour with the children. It will be your gain. Rumor has it that there is to be some repairing done on the parsonage in the near future. It is very much needed.

Barker's Corners' Events.

BARKER'S CORNERS, June 11.—Julie Barker has returned from the east, where he has been the past year with his sister. Miss Lottie Taylor is visit-

ing the families of Elder Richards and Elder Perry at Richland Center. Boy number four has arrived at Mont Walrath's home. The Ladies' Aid society will meet this week Thursday with Mrs. William Hodge. There will be an ice cream social at the church Wednesday evening of this week. The proceeds are for Miss Guernsey, a very worthy young lady who has partially lost her eyesight, and has been to much expense in doctoring. Everyone is not only invited, but urged, to be present and help in the good cause. Orson Cox, one of the old settlers of Fulton, is quite low from the result of a stroke of paralysis.

Magnolia News Notes.

MA GNOGLIA, June 11.—There will be an ice cream social at Hyatt Weaver's Friday evening. Will Aheson and Mr. Whitney are on the sick list. The basket social at Mr. York's is said to have been a success. Many children have whooping cough. Miss Bird Preston has been the guest of Mrs. Ariel Worthing this week. Elder Bolster, a former pastor here, will preach Tuesday evening, June 18, at this place.

Absolute Purity Guaranteed.

We are pleased to send you an extract from a report of the health commissioner of Chicago, giving an analysis of the leading baking powders sold in the west:

LABORATORY OF THE HEALTH DEPARTMENT, OSCAR DE WOLF, COMMISSIONER OF HEALTH, DEAR SIR: I have made a very careful and elaborate chemical analysis of twenty-seven samples of baking powders received from the hands of Mr. Merki, your clerk, and have the honor to report the following table of figures:

	Soluble	Insoluble	Total
Asb.	39.00	0.06	39.06
Dr. Price's Cream	36.18	0.12	36.30
Royal	36.50	0.12	36.62

A known and weighed quantity of baking powder was incinerated in a silver crucible until only a grey residue was left. This is the total ash. It was carefully removed to a glass vessel and acted upon by hydrochloric acid and distilled water at the boiling point; what dissolved in that menstruum has been called soluble ash, and that which did not, insoluble ash. I have the honor to be, sir, yours respectfully,

R. S. G. PATON,

Chemist of the Health Department.
Dr. DeWolf says: "The analysis will be of practical value to housekeepers in showing what proportion of the baking powders is digestible and what indigestible."

The report, coming from unquestioned authority, is also of importance to the merchant who is often called upon to furnish the best article and should be familiar with its comparative merit.

Lawn Sprinkling Must Stop.

The attention of water consumers using water for lawn sprinkling, is called to the rule of the water company, "That use of hose for lawn sprinkling is prohibited during a fire." Neglect on the part of water takers to comply with this rule endangers the city, and as a matter of safety I shall require the manager of the water company to enforce the rule in all cases.

Full off with starch and gloss serene,
The linen collar starts the morn;
Full off at noontide it is seen
All wilted, wrinkled and forlorn.

That's what you must expect of such a collar; it's the linen of it. The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and waterproof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

Insist upon goods so marked if you expect full satisfaction, and if your dealer does not keep them, send direct to us enclosing amount and we will mail sample. State size, and whether a stand-up or turned-down collar is wanted. Collars 25c. each. Cuffs 50c. pair.

A BICYCLE FACTORY LIKELY TO BE BUILT

J. C. SCHULER HOME FROM HIS
CHICAGO TRIP.

Went to Get Estimates On Machinery
and Materials and It Is Said That
Local Capital Is Interested—Smel
Not So Bad—More Light Wanted
—Spring Brook News.

Things begin to look now as though a bicycle factory on a large scale would be a thing of the near future. J. C. Schuler, who is an expert in this line, has recently returned from a trip to Chicago, where he was sent to look into the matter and to get estimates on machinery and needed material. Mr. Schuler has returned and made a satisfactory report, but what the outcome will be remains to be seen. It is quietly whispered that local capital is interested in the scheme and that it will be a go.

They Want More Light.

Residents, have for some time complained that the city was too sparing in the use of light at Spring Brook addition. The one electric light that is situated at the corner of Eastern Avenue and McKay boulevard, is supposed to answer for that part of the city, and they say persons coming home at night on the street cars can hardly find their way.

Smell Is Dying Out.

The highly colored smell that comes from the vicinity of the Jackson street bridge, is not so strong of late since the health officer's attention has been called to the situation of things. The dumping of rubbish into the river at this point is not so frequent now, although a local butcher was caught with three barrels on his wagon, bulging with refuse.

To Raise Many Potatoes.

A number who reside in this vicinity, haven't much faith in the chicken business, and have gone to raising potatoes. Among those most interested in the business is L. J. Cronin, who has planted three acres, and if conditions are as favorable as they look, there is money in the business.

Want An Alarm Box Changed.

The fire alarm box which is situated on McKay boulevard near the Hall furniture factory, is claimed by the residents to be too far from the many houses in that vicinity, and an effort will be made to have it removed nearer Eastern avenue.

Lore Will Move Away.

Frank Lore, who has resided on McKay boulevard for some time, expects to sell his place and go into the laundry business in Elkhorn. Mr. Lore has been talking of this move for some time past, and has recently returned from Chicago, where he went to look after some machinery.

MINOR NEWS NOTES.

FRANK O. SAMUELS, of the firm of Samuels & Kuehn, the Spring Brook grocers, reports an unusually large business this summer, and says their sales will reach double the amount sold by them last year.

A COLLISION of bicycles took place the other evening on the curve at the corner of Eastern avenue and McKay boulevard, which resulted in the general wrecking of a lady's machine.

TRAMPS of late have been very shy and few of them have been seen. They manage to sleep in the barns over night, making their escape in the early hours of the morning.

CHARLES LARSON, Fred Johnson, Oscar Helander and Charles Swanson formed a fishing party, that recently took a trip up the river. They came home with a good sized string.

R. N. SPICER, who resides on Eastern avenue, is going into the threshing business more than ever the coming summer, and has refitted his machinery throughout.

THE Dry Extract Company has recently received a large shipment of coal, which has been unloaded from the cars at the Eastern avenue crossing.

A NUMBER of springs of running water have been discovered near the Burr Robbins homestead and the water is as clear as a crystal.

L. J. CRONIN has made numerous improvements about his Eastern avenue residence, besides treating his barn to a new coat of paint.

HENRY SPOHN's new residence on Eastern avenue is about completed and he expects to move into it the latter part of next month.

A BASE ball nine will soon be formed and will be ready for business under the name of the Spring Brook Whirlwinds.

J. C. SCHULER attended the road race at Chicago, and says it was the greatest bicycle event of the season.

H. SPOHN's former home on Eastern avenue has been sold to Iowa parties, and will soon move to this city.

A NEW girl has arrived at the Eastern avenue home of Mr. and Mrs. O. Hilander.

JOHN JOYCE has returned home from a five weeks' visit with relatives in Chicago.

HER TOOTH EXTRACTED.

Aching Molar Taken from the Mouth of an Elephant.

To pull an elephant's tooth is about the biggest professional task a veterinary was ever called upon to undertake. The operation was performed a few months ago at Peru, Ind., the winter quarters of the great Wallace shows. Jeannette, one of the favorites in the herd exhibited with this aggregation, showed signs of distress. She had acute attacks of indigestion and would frequently whinny as if suffering greatly. She did not relish her food. She became very affectionate toward her keeper and seemed to be begging him to do something for her relief. Dr. Upshall, a member of the Detroit College of Veterinary Surgery, was telegraphed for. He found Jeannette had an ulcerated tooth, which was aching terribly. The afflicted one was a grinder of huge dimensions, and it hurt just in proportion as it was big. The ulcer on the root, when out, proved to be as big as a hen's egg. Jeannette's measurement was taken from her tail to her neck. Just that distance from a corner in a brick building with a fourteen-inch wall, was erected, with massive oak timbers, a sort of stock, with an adjustable top piece. She was backed into the corner and her head put through the timbers, which was then closed on her neck. The walls of the building held her body and she would have to pull her head off to get away from the timbers. Dr. Upshall produced a pair of forceps that would make a blacksmith's tongs look like small players. He mounted the scaffold built in front and secured Jeannette's trunk back over her body with strong straps. Then he passed a strap iron through her mouth and fastened her jaw firmly. All was ready. He gripped the great forceps into the tooth and with a ratchet device on the handles he screwed them as tight as possible. Three other strong men mounted the frame work with him. At a signal all began to pull. Jeannette groaned and tried to break away. At first it was a long, steady pull, but the tooth was there to stay. The doctor instructed his assistants to let up and they would try other tactics. He directed them to give it short, sudden jerks in unison. They did so, and at each "heigho" that molar was given an argument that caused Jeannette to let forth a terrible groan. Once, twice, three times they jerked—and then! Well, two of the men were picking themselves up off the floor and one was clinging to the timbers. Dr. Upshall stood on the scaffold smiling. In his hand were the forceps and in the forceps was the troublesome grinder. Jeannette had quit bucking, and with her big tongue was exploring her capacious mouth to ascertain where all that bric-a-brac had come out of her face. It was some time before she indulged in such rare delicacies as dried thistles, but she is all right now and traveling with the Wallace shows.—Ex.

AS GOOD AS MUNCHAUSEN.

This Family Drank Water From an Iron Impregnated Spring.

A remarkable story comes from the upper Yakima country, Washington. Two years ago Peter Stromshadt located on a piece of land near what is now known as Borax Springs, his family consisting of his wife and two children. A few days after his settlement Stromshadt discovered a spring close to the shack he had built, the water of which was strongly impregnated with iron, but not unpalatable. Stromshadt dug and deepened the spring, and since July, 1893, the family has used the water for all domestic purposes. One night recently a heavy electric storm passed over the cascades, accompanied by vivid displays of lightning. The following day Mrs. Stromshadt, while kindling a fire in the stove, found it almost impossible to separate the stove lifter from her hand. Her husband, hearing her scream, ran to her assistance, when, to his surprise, he found that he, too, experienced great difficulty in detaching any article of iron with which his hands came in contact. Breakfast was finally prepared and the family sat down to the meal. The children, girls of 5 and 7 years respectively, drank their milk from tin cups, and upon raising their cups to their mouths found themselves unable to detach the cups from their lips. Stromshadt, who is an intelligent immigrant from Sweden, was nonplused, and while unable to account for the wonderful occurrence, nevertheless laughed at his wife's exclamations that the family was bewitched. In a letter to a friend he says that the small bed in which the children sleep is upon roller casters. At night when the children are put to sleep the head of the bed is a little to the east. Invariably in the morning the bed is pointing north and south. A member of the Portland, Ore., Academy of Science, to whom the circumstances were related, says that the Stromshadt family has become saturated with iron, which was rendered magnetic by the passage of electricity from the clouds to the earth during the recent electric storm. Stromshadt himself takes the matter philosophically, and aside from the inconvenience of having his head decorated with a fringe of knives, forks and teaspoons, which are attached to him, is inclined to regard the occurrence lightly.

The Sybarites.

In the south of Italy there was once a flourishing Greek colony called Sybaris. The town was well situated for commerce, the surrounding country was very fertile, the climate was the finest in the world, and for some centuries the Sybarites were industrious and enterprising, carrying on a profitable trade with other countries and heaping up immense wealth. But too much good fortune finally proved their ruin. Little by little they lost their habits of labor and thrift, and instead gave themselves up to pleasure. Finally leaving all kinds of necessary work to their slaves, they laid aside the cares of life, and spent their days in eating and drinking, in dancing and in listening to fine music, or in attending the circus and watching the feats of acrobats or performing animals.

Rough on His Feelings.

Tit-Bits: "No," said the man who was shot in the head by his friend while they were out shooting, lost the greater part of an ear and was scratched considerably, "I don't mind the wounds so much, but it breaks my heart to have my head mistaken by my most intimate friend for a rabbit."

One Fool Enough.

Gus De Smith went to a masquerade ball as a harlequin. A few days afterward an intimate friend asked him for the loan of his harlequin costume, as he, too, wished to attend a masquerade ball.

"No," replied Gus, "I allow nobody to make a fool of himself in my costume except myself."—Texas Siftings.

Narcoti-Cure

CURES THE TOBACCO HABIT IN 4 TO 10 DAYS OR MONEY REFUNDED.

Use All the Tobacco You Want Till Your "Craving" is Gone.

Narcoti-Cure is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in four to ten days. It leaves the patient in better health than before taking, and is warranted free from all injurious ingredients.

Narcoti-Cure is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

Narcoti-Cure is sold at the uniform price of \$5 a bottle, and one bottle cures.

Money refunded if a cure is not affected when taken according to directions.

PROF. W. N. WAITE, Of Amherst, Mass. Chewed Tobacco For 46 Years, and Was Cured by Narcoti-Cure.

AMHERST, Mass., Feb. 8, 1895. The Narcoti Chemical Co., Springfield, Mass.

Gentlemen:—Replying to yours of the 1st would say that I have used tobacco for 46 years and of late have consumed a 10-cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say use Narcoti-Cure.

Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for Book of Particulars free, or send \$5 for a bottle by mail.

THIS DAY IN HISTORY

1294—Roger Bacon, commonly called Friar Bacon, scholar, alchemist and liberal writer, died at Oxford; born 1214.
 1776—The continental congress named the committee of five to draft the Declaration of Independence. Richard Henry Lee's motion for a declaration of independence and dissolution of all ties with the mother country was under consideration from June 7 to July 1. In order that no time should be lost, Jefferson, John Adams, Franklin, Sherman and R. R. Livingston were appointed to draft a document. Jefferson wrote the draft, which he submitted to Franklin and Adams and adopted their verbal alterations in a copy reported to the full committee. The document was subsequently discussed and amended in congress and adopted after a stormy debate, in which John Adams was "the co-leader."
 1800—The seceders from the Charleston convention met in Richmond.
 1870—William Gilmore Simms, author, died at Charleston; born there 1806.
 1883—General Joseph A. Hall, a war veteran of Maine, died on a railroad train near Syracuse.

DEMOCRATIC HEDGING.

That the administration should be ashamed of some of the history that the party in power is creating, is perfectly natural, and that an effort will be made to counteract the evil influences and save the party from increased humiliation, is to be expected. With the surplus exhausted and in its stead a debt of \$165,000,000 something must be done before the republican congress convenes.

It will not do to disturb the tariff, for that is a hobby of the administration, and if the country was losing a million a day, instead of half that sum tariff reform must be strictly observed, because the democratic party, won success on that issue. Several schemes are suggested to help the demoralized party out, the most feasible and the one likely to be incorporated in the president's message, and endorsed by Secretary Carlisle is to place an additional internal revenue tax for \$1.00 a barrel on beer, a stamp tax on checks, business paper, and patent medicines and also an increased tariff on tea. It is believed that these duties would meet the deficiency and forestall the action of the republican congress. In case the recommendations fail, the president would be relieved from responsibility.

The silver question, another disturbing element, will be disposed of by a session of the democratic national committee called at the suggestion of the president to act on a series of resolutions, discouraging silver state conventions, similar to the one just held in Illinois. For an off year democracy will be kept fairly active.

Rock county tobacco raisers will probably be interested in the fact that in 1894 the world produced 768,000 tons of tobacco, grown on 2,029,000 acres of ground. The United States was the largest, producing 210,000 tons. Next came India with 170,000 tons; Russia with 75,000 tons; Austria with 65,000 tons, the remainder being produced in small quantities by other countries.

Notice.

The attention of water consumers is called to the public notice issued by the chief engineer of the fire department, requiring this company to enforce the rule which prohibits the use of hose during fires.

The rule for sprinkling permits the use of hose from 5 to 8 p. m. only, and in case of fire the water must be turned off at once.

The water company trusts that hereafter both of these rules will be strictly observed by its patrons.

NEWS OF LOCAL IMPORT.

It would seem perhaps rather a difficult matter to some people to figure out the reason why we are having such a tremendous sale on shoes, with so many concerns making an effort to clean out their stock. It is easy enough to see why, though. Shoes selling at fifty cents on the dollar of the actual factory cost cannot help bringing good trade. Any shoe in our stock at 50 cents on the dollar. Becker & Woodruff.

DRINK Notox it touches the spot when you are thirsty. For a cool, delicious, healthful and refreshing beverage it has no equal. Prepared in one minute by the glass, quart or gallon. International Prison Congress.
 Paris, June 11.—The international prison congress, which opened here this morning, is the largest and most representative gathering of its kind ever held. Nearly a year ago the French government issued invitations to every civilized nation to appoint delegates to the congress. All of these invitations were accepted without exception and over four hundred delegates have arrived here during the last week. Every phase of the prison question will be discussed, including the identification of criminals, best methods of reforming young offenders and the most humane methods of execution. The gathering will continue throughout the week.

PUPILS PLAY AND SING NICELY

Misses Royce and Garlick Gave a Recital Last Evening.

Miss Anna Boyce and Miss Ruby Garlick of Beloit, gave a charming recital at Mrs. J. F. Sweeney's studio at the Grand Hotel last evening and forty or fifty musical enthusiasts enjoyed the affair fully. Miss Royce, who is a daughter of Rev. and Mrs. Fayette Royce, is a pupil of Mrs. Sweeney's and possesses exceptional talent as a pianist, while Miss Garlick is a pupil of Mrs. Hattie Torrens and is possessed of a remarkably fine voice as well as an unusual amount of natural ability in its use. Both young ladies did exceedingly well and reflected credit both upon themselves and their teachers. Light refreshments were served at the close of the program, which was arranged as follows:

Beethoven—Sonata Pathétique. Op. 13 (C minor).
Song (a) Jensen—"Oh Let Thy Tears Fall Fast With Mine."
(b) Meyer Helmund—Marionette.
Schubert—Impromptu in Bb. Op. 14. No. 3.
(a) Jensen—Waltz. Op. 33.
(b) Raff—"At Sunset." (Meditation.)
(c) Meyer Helmund—Ballet Music. (Tanzmeise.)
Dana—"The Lilies Clustered Fair and Tall."
Mendelssohn—Rondo Capriccioso.
Paderewski (a) Nocturne in Bb. Op. 16. No. 4.
(b) Minuet Antique.
Aht—"Thou Wondrous Youth."
Schubert—Heller—"The Trout."

MOTHER AND BABE HAD A CLOSE CALL

WICKED RUNAWAY ON RIVER STREET THIS NOON.

Woman Was in the Path of the Team and Was Too Frightened to Know Which Way to Turn But Finally Took Her Chances and Escaped Uninjured.

People on South River street held their breath this noon. On a cross-walk stood a frightened woman with a baby carriage, while a team of horses came plunging toward her. She was too frightened to know which way to turn, and everyone expected to see the team run her down. People called to her to get out of the way, but her only answer was a terrified glance about. Then she seemed to realize that something must be done, and pushed the carriage toward the sidewalk. The whole occurrence had not required more than a minute's time, and when the horses passed her they went so close that the wagon wheel almost scraped her dress. The women was much frightened and did not regain her composure for some time as it was probably the narrowest escape she will ever have.

The team was owned by James L. Gibson who lives in the Second ward. They become frightened on North River street and came down on the run with only the front wheels of the wagon attached to them. As both horses were grey, when they ran across Milwaukee street many people thought that they belonged to the fire department and that a hose wagon had been wrecked. They did not meet with a serious accident until the Riverside hotel was reached. It was here that the woman and the baby had so narrow an escape. One horse wanted to go straight ahead, while the other swerved sideways to turn into Pleasant street. But for this waver the woman must surely have been run down, and as it was, they collided with another wagon, throwing things in a pile. Chauncey K. Miltimore, who was riding his saddle pony at the time, finally caught the team.

RAILROAD MEN PLAN EXCURSION

Trainmen and Conductors Will Take Fresh Air Trips.

For some time past trainmen on this division of the Northwestern road have been planning on an excursion and arrangements have been completed for a trip to Watertown which will occur on the last Sunday of the month. The train will leave here early in the morning and the affair will be made public.

The order of railway conductors are also making arrangements for an excursion to Twin lakes, the affair to be in charge of conductors on the Northwestern road. Although nothing definite has been done July 14, has been talked of as the date.

LOOKING UP THE LICENSE MATTER

Supervisors Finding Out How Much the City Owes the County.

Supervisors Powers and White, and County Treasurer Nye, the committee appointed by the county board to ascertain the number of licenses granted by each town, village and city, upon which the county has a claim, held a meeting in the court house this afternoon, when they visited the city clerk's office to examine the records. The committee will report to the county board on Thursday.

ANTI-TOXINE HAS ITS EFFECT.

Drs. Pember and Gibson Try It in the Springbrunn Case.

The diphtheria patient at the Pleasant street home of Mrs. Henrietta Springbrunn, has been improving very slowly of late, and Drs. Gibson and Pember decided to try anti-toxine. The medicine was injected in the little boy's side and he began at once to get better, and the doctors think now it is only a matter of time when he recovers.

NEWS OF THE STATE TOWNS

FRED CHESBRO of Delavan, and Miss Clara Madison of Darien, were to have been married in September, but Thursday they accompanied the Delavan delegation on the Modern Woodmen's excursion to Madison, and while there decided that there was no time like the present, and were married.

The city fathers of Neenah are in favor of assessing bicycles. An alderman estimated the value of wheels in Neenah at \$12,000, nearly equal to the assessed valuation of all the horses in the city. A 3 per cent tax on wheels would mean an income of \$360 to the city treasury.

VIRQUA is a town which forbids the children from running the streets after bedtime. The "kid" whistle blows at 8 o'clock, and youth under the age of fifteen years are not allowed on the streets after that hour.

WILLIAM SMITH, the town assessor of Caledonia, is minus his assessment book, and if it is not found he will have to do his work all over again.

A FEW days ago at Helensville, near Palmyra, a number of crows attacked a turtle that was basking in the sun and succeeded in killing it.

THE Tomahawk common council is endeavoring to keep children under sixteen years of age off the streets after 9 o'clock p. m.

TOMAHAWK will celebrate the Fourth with a grand celebration. Over \$200 has been raised for the occasion.

The school board of Jefferson has let the contract for the new \$13,000 school building.

TRY TO PURIFY STEVEN'S POINT

Rev. W. F. LeQua, the Former Janesville Pastor Inaugurates a Reform.

Rev. Wilbur F. LeQua, the former pastor of the Court Street Methodist church but who is now located at Stevens Point, has started a morality crusade on that city. He preached an eloquent sermon Sunday evening at St. Paul's M. E. church, setting forth the need of municipal reform in various departments, and especially advocating the strict enforcement of municipal code relative to Sunday closing and the closing up of all gambling houses, which have been running almost wide open for a long time. As the result yesterday signatures were solicited from all the prominent men endorsing the movement. The clergy of the city are unanimous in their efforts to purify the city—Protestant and Catholic alike. The aid of the council will be sought, and a radical reform along lines indicated will be instituted.

GEN. DOE TO ADDRESS BREWERS

Will Attend The Convention Banquet at Milwaukee Tomorrow Evening.

General Doe, who is now in Janesville, will attend the convention banquet of the United States Brewers' association at Milwaukee tomorrow evening and make a speech. The Sentinel this morning has the following: "General Joseph B. Doe, assistant secretary of the war department, has telegraphed to President Obermann, of the United States Brewers' association, that he will arrive in Milwaukee Wednesday evening in time for the brewers' banquet. The general, of course, will be one of the speakers at the banquet, and will explain the relation of the war department to the brewing industry."

SMITH AND POWERS DOING TIME.

"Sailors" Who Were Shipwrecked Sent To Jail For Three Days Each.

Frank Smith, alias "Tinker" and William Powers alias "Vag" were introduced to Judge Phelps this morning by Patrolman Hogan, for the twelfth time, charged with drunk and disorderly conduct, and each was given three days' board with Sheriff Appleby. Smith and Powers were on a naval expedition, with plenty of beer in the lockers of their craft last evening, but when off "Goose Island" the boat capsized and they had to swim for it.

HOT WEATHER HARD ON STOCK

Animals Suffer Much These Days While on The Road.

These are hard days for the cattle enroute for the Chicago market, especially if the animals are crowded in the cars. A car of hogs arrived in the city yesterday, consigned to C. Stoller. When the car rolled into the yards the animals had plenty of room in the car and were shipped but a short distance, but when they were unloaded four of the number were found to be dead, which loss falls on the buyer.

PARK IS RIFE WITH LOUD NOISE

Fourth Ward People Complain That Their Rest Is Broken.

People residing near the Fourth ward park complain that young men and women, boys and girls who frequent the Fourth ward park, kept the whole neighborhood awake until 2:30 o'clock Sunday morning by yelling, singing and having a good time in general. Base ball they say is a quite respectable amusement, beside the revelries of these young people and the residents would like to have the disturbances cease.

THEY WILL NOT PAVE SOUTH MAIN STREET

THE PROPOSITION HAS BEEN GIVEN UP.

Many Signatures Were Secured But the Anti-Paving Delegation Finally Carried the Day and the Scheme Fell Through—Street Greatly in Need of Repairs.

The indications are that South Main street will not be paved this season. Those who have been most enthusiastic in the agitation for the improvement, have now given up hope and abandoned the project. Ex-Sheriff J. L. Bear, who has spent considerable time in circulating a petition for the signatures of those favorable, has given up his job. Mr. Bear obtained quite a number of signatures, and at first he was very confident that he could get a majority. However, a counter petition was put in circulation, and lot owners were led to believe that their property would be almost confiscated in case the project for paving carried, hence they put themselves down as opposed to the scheme.

"I don't know what the property owners really intend doing with the street," said Mr. Bear this morning. "One thing is quite certain. There are but few streets in the city in worse condition than South Main street, and something ought to be done to improve it. I do not know whether the Third ward aldermen will be willing to take it in hand and fix the street as it should be or not. If the aldermen do it the expense will be paid by the ward. It is claimed that there are a large number of streets in the ward which need more or less work, and perhaps the aldermen will at last feel like expending much money in improving Main street."

COMPLIMENTS FOR MISS ROLSTON.

Minneapolis Tribune Has a Good Word to Say of Her Singing.

In speaking of Miss Belle Rolston's singing the Minneapolis Tribune says: "Miss Rolston has a most pleasing stage presence and sings with a distinctness of enunciation that commands her every rendition, adding this desirable quality to a voice that is naturally strong and clear. She has become a concert favorite during her short residence in Minneapolis, and receives cordial applause for any part she may take."

A Modern Othello.

Landlord—I come to see you on a matter of great importance. You must move out on the first.

Tenant—What's the matter?

"During the six months you have been in my house you have not paid a cent rent. I care nothing about that, but you are everlastingly hugging and kissing my wife, and that's got to stop on the first of the month."—Alex Sweet, in Texas Siftings.

How It Works.

Prison Superintendent—Here's a lot of official documents showing that the man who has been in cell 90 for the last ten years has been found innocent of the crime for which he was convicted.

Assistant—Hum! What's to be done now?

Superintendent—Kick him out.—N. Y. Weekly.

Seasonable Aid.

"I would like to make your last hours comfortable," remarked the humorous man to the Thanksgiving turkey; "what can I do for you?"

"Thanks, awfully," answered the Thanksgiving turkey; "if you will furnish the chestnuts I'll do the rest."—Detroit Free Press.

A Broken Agreement.

Theatrical Manager—I'm not going to pay you for my theater.

Contractor—Why not?

Theatrical Manager—Because you contracted to build a theater to hold 2,500 people, and there haven't been 500 people in the place any night since it opened.—Truth.

Easily Explained.

Jones—I wonder why poets wear their hair long.

Brown—Didn't you ever have your hair cut?

"Yes, of course. What's that got to do with it?"

"Lots. Didn't you have to pay for it?"—Life.

A Forgotten Factor.

Cook—I wonder where the missus goes so often?

Second Girl—She's attendin' the Emancipated Women's league.

Cook—Huh! If she thinks she's goin' to git herself emancipated from me, she'll find herself mistaken.—N. Y. Weekly.

No More Interest in It.

"What made Sadie Tillinghast resign from the woman's suffrage league? She was one of the most earnest members."

"Yes, I know; but she seemed to lose all interest in the cause after Joe Gibbs proposed. They are to be married in a couple of months."—Judge.

The Kind of Gun He Meant.

Woodbee Buyer—I thought you said these lots were within gunshot of the depot.

Real Estate Agent—So they are; those new dynamite guns, you know, can shoot a distance of twenty miles or more.—N. Y. World.

Too Generous.

Mildred—Is your husband a very generous man?

Margery—Indeed he is. You remember those nice cigars I gave him for a birthday present? Well, he smoked only one and gave all the others away to his friends.—Truth.

Worthy of Confidence.

McNish—Do you think that McSimum is a man whom it is safe to trust?

McNash—I certainly do. He borrowed a lead pencil from me the other day and returned it as soon as he was through with it.—South Boston News.

Supreme Advancement of the Sex.

Young Man—Look out! There's a mouse!

The Advanced Young Woman (calmly)—Oh, how cunning! Can't you coax the little dear out this way?—Chicago Record.

For They Surely Will.

Young husbands with slim salaries—May now begin to figure upon the probabilities that steers will soon be bigger.

—Chicago Tribune.

AN APPEAL.

"Maud Percy Sidney, listen to me. Mean my child is desolate since you have took from us our purveyor an' support. If my words cannot move you, let the wasted form of this poor child melt your heart, if it be not made of adamant or cast iron."—Life.

In the Sanctum.

Visitor—Are you acquainted with Scribbler, who writes poetry?

Editor—I should say I knew him. I had to buy a new waste basket last week on his account.—Tammany Times.

Give or Take.

Spencer—What do you mean by saying that it is give or take with Judge Sockitt?

Ferguson—Ten dollars or ten days.—N. Y. World.

Two Ways of Looking at It.

Single Man—How many children are you blessed with?

Married Man—I buy shoes for six.—N. Y. Weekly.

Unanswerable.

Tipple—Why wouldn't you live in a fat?

Sibyl—My dear, there's no room for reply.—N. Y. World.

B. H. Bowman: Pub. Enquirer, of Bremen, Ind., writes: Last week our little girl baby, the only one we have, was taken sick with croup. After two doctors failed to give relief and life was hanging on a mere thread, we tried One Minute Cough Cure, its life was saved. C. D. Stearns.

ONE DISEASE AND ONE REMEDY.

"The art of painting," said Millaud, consists of selecting the right colors and putting them in the right place." "The way to win a battle," said Napoleon, "is to mass your troops at the critical moment against the weakest spot in the enemy's line." "The way to cure many ailments," said the great Dr. Abercrombie "is to purify the poisoned spring in which they arise, generally the torpid and inflamed digestive system."

Thus wisdom and experience simplify and condense. Thus the Shakers of Mount Lebanon reasoned when they sought and finally found a remedy for indigestion and dyspepsia. Where one person has something else, they argued, a thousand have this. To cure this alone will almost rid the world of sickness. Why should we vex ourselves with confusing definitions? A good digestion is life and health, a bad one disease and death. Hence, from the healing and stimulating mountain herbs, they extracted the principles which make the Shaker Digestive Cordial the rarest and most effective of medicines for one disease and one only—indigestion and dyspepsia.

Do you suffer from any of these miserable feelings?—depression of spirits, heaviness and pain in the stomach after meals, bad taste in the mouth, wind in the bowels, irritable disposition, nervous weakness and alarm, worry and weariness, costiveness or irregularity of the bowels, nausea, palpitation, sick headache, heartburn, loss of appetite and sleep, dry skin, etc?

Don't indulge in fifty foolish fancies. You have indigestion and nothing else. Set the disordered stomach right with the one medicine which will surely do it, Shakers Digestive Cordial, and these symptoms will vanish with their cause. A good effect will follow the first doses. Even chronic cases soon yield.

Test the cordial, at practically no cost, by taking a ten-cent bottle. For sale by nearly all druggists.

A New Typewriter.

Patent rights have just been granted to a young inventor in St. Paul for improvements on the typewriter machine which will greatly increase its speed. The improvements consist of the introduction of the stenographic principle, making the machine capable of printing whole words at single strokes of the keys. Many of the small words and word endings which are most frequently used are represented in the new machine by separate keys of their own, and by a clever device the spacing is made to correspond automatically with the length of the words thus set apart. Another time saving device is the two space lever, which enables the operator to form the space between the words with the same stroke which makes the last letter of a word. An automatic spacer, used to print tables of figures and similar work, is also added to perfect the equipment of the new typewriter. The inventor claims that the speed to be attained by the use of these devices is much greater than has yet been secured. Next he proposes to introduce electricity as the motive power in the manipulation of all the mechanical parts, leaving it necessary for the operator only to press lightly on the keys to print whole words with great rapidity.—New York Post.

A Snake the Negro Fears.

Mr. Powe, in speaking of snakes, said that the "coachwhip snake" was the terror of the negroes. There was an old superstition among them that the coachwhip would whip a man to death and then put the tip of its tail into the nostrils of the victim to see if he was dead. An old negro man went out to catch the horses of the party, which were turned into pasture, while they were out fishing and hunting, and on the way began to think about snakes. The old man had a bride on his arm, and by some means one of the long leather reins had got loose and was dragging behind him. His imagination had worked him up so that the sweat was standing out on his black skin. He chanced to look back and catch a glimpse of the rein. He let a blood curdling yell and ran. He looked back and on came the rein, which he took for a coachwhip snake after him to beat him to death. The negro actually ran until he fell exhausted, and then fearing the superstitious act of having the tip of the snake's tail run up his nose he clapped his hands over his face and prepared for the whipping.—St. Louis Post-Dispatch.

Geneva's Water Fireworks.

The municipality of Geneva has recently built a new reservoir on the Besing heights at an elevation of about 440 feet above the level of the lake. This reservoir is filled by motor power obtained from an artificial fall of the waters at the Rhone, where it leaves the lake. At the entrance of the harbor a waterpout is provided, which is turned on only Sunday and several evenings during the week. The spout is the biggest in Europe, rising to nearly 300 feet in the air. In clear weather it can be seen from afar and appears like a sail oscillating in the wind. On summer evenings other beautiful effects are shown, with several smaller fountains electrically illuminated in various colors. These water fireworks, as they style this entertainment, have become great favorites, and the natives and tourists are greatly admiring the innovation.—Philadelphia Press.

Dickens' Characters.

Not even Dickens, I think, found room for a butcher amid his Babylon of trades. A bailiff he has and eight sheriff's officers, half a dozen beadles and half as many more brokers. The sheriff's officer is, of course, a familiar enough figure from the days of our literary drama.

An ingenious American has compiled a list of Dickens' characters, classified by callings, and it reads like nothing so much as a trades directory. There are architects, auctioneers, bankers, barbers, boarding house keepers, blacksmiths, carpenters, carriers, chandlers, chemists, clerks (a perfect army of them), coachmen, coal merchants, constables, corn chandlers, costumers, detectives, doctors, domestic servants, dry salters, engineers, engine drivers, farmers, fishermen, gamekeepers, grocers, green grocers, haberdashers, hoggrowers, jailers and turnkeys, laborers, lamplighters, lawyers, law stationers, locksmiths, manufacturers, merchants, medical students, money lenders, notaries, hostlers, pawnbrokers, parish clerks, plasterers, porters, postmasters, potboys, reporters, robemakers, saddlers, sailors, sextons, shipwrights, stewards, stokers, stonemasons, sugar bakers, tailors, teachers, tobacconists, toymakers and merchants, undertakers, watermen, weavers, wharfingers, wheelwrights.

The list might be made longer, but that perhaps is long enough to make you realize how amply provided with trades and tradesmen are the teeming streets of Dickens' imagination.—Macmillan's Magazine.

Iridium.

Singularly enough, iridium, though a metal of such comparative rarity, is said to be a source of no small trouble in the operations of our mints, on account of

the difficulty experienced there in separating it from gold bullion. Practically, as is well known, this metal is utilized to some extent for making instruments of delicacy which require to possess the property of not corroding, and is obtained from iridosmine, a natural alloy of iridium, osmium, rhodium, platinum and ruthenium, an extraordinarily white mixture of rare metals, much of it being found in washing for gold in the beach sands of Oregon, and it resists the action of all single acids. In its use for tipping gold pens, in which it is especially serviceable, the grains of it, which are flat, like gold dust, are picked out with magnifying glasses.—New York Sun.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure C. D. Stevens.

Surely Entrenched.

Against disease are those who are prudent enough to renew failing energy by the aid of the grand fortifying agent, Hostetter's Stomach Bitters, which promotes a vigorous discharge of the duties imposed upon the various organs by nature, and which if impeded or relaxed speedily bring about their disorder. Digestion, assimilation, a due secretion and direction of the bile and a regular habit of body are insured by the systematic use of this safe, prompt and thorough medicine. Chills and fever, bilious remittent, dumb ague and nervous headache, kidney complaints, sick headache, ague and other morbid conditions are removed by it. It promotes a rich flow of the blood as well as the ability to digest and assimilate it. The infirmities of declining years are mitigated by it. A wineglassful before retiring promotes healthy yielding repose.

W. T. Sanford, station agent of a Leeper, Clarion Co., Pa., writes: I can recommend One Minute Cure as the best I ever used. It gave instant relief and a quick cure. C. D. Stevens.

A TRUE STORY.

Last month I cleared, after paying all expenses, \$25.35; the month before \$18.50 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

AN ORDINANCE TO AMEND AN ORDINANCE

entitled "An ordinance prescribing the fire limits of the city of Janesville, and the manner of constructing buildings within such limits," passed, June 20, 1892.

The mayor and common council of the city of Janesville do ordain as follows: Section 1. Subdivision 9 of section 2 of an ordinance entitled "An ordinance prescribing the fire limits of the city of Janesville, and the manner of constructing buildings within such limits," passed June 20, 1892, is hereby amended so as to read as follows: "9. Provided also that this ordinance shall not be construed to prohibit the erection of sheds and outbuildings not to exceed twelve feet in height at places other than upon the following streets, and within twenty feet of the same, viz:—North and South Main streets, between Fourth Avenue and South Second streets, and East and West Milwaukee streets between 'Division street and Academy street.' Section 2. This ordinance shall take effect and be in force from and after its passage and publication in which publication shall be for three successive days. F. S. BAINES, Mayor. June 10, 1895. A. E. BADGER, City Clerk.

FORECLOSURE SALE, STATE OF WISCONSIN.

In said Circuit Court for Rock county—Wm. J. Atwater, plaintiff, vs. Geo. L. Carrington and Sarah H. Carrington, defendants. Notice is hereby given that by virtue of and in pursuance of the judgment of foreclosure and sale rendered in the above entitled action at a regular term of said circuit court for Rock county on the ninth (9) day of May A. D. 1895, in favor of the above named plaintiff and against the above named defendants, I shall offer for sale and sell at public auction to the highest bidder, at the front door of the post-office in the city of Janesville, Rock county, Wisconsin, on the eighth (8) day of July A. D. 1895, at the hour of ten (10) o'clock a. m. of that day, the following described lands and premises in and by said judgment of foreclosure directed to be sold, situated in the city of Janesville, Rock county, Wisconsin, and described as follows, to-wit: Lots numbered five (5) and six (6), Carrington, Wheeler and Whitehead's addition, to the city of Janesville, according to duly recorded plat thereof. Lot numbered nineteen (19) in Glen Etta addition in the city of Janesville, according to the duly recorded plat thereof, together with privileges and appurtenances thereto belonging, or so much thereof as may be sufficient to satisfy said judgment with interest thereon, costs and solicitor's fees, together with costs of sale. WM. H. APPLEBY, Sheriff Rock Co., HENRY S. SLOAN, Plaintiff's Attorney, June 10, 1895.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the undersigned city clerk of the city of Janesville, until June 17th, 1895, at 8 o'clock a. m., for furnishing the city with lumber and pipe for the sewerage system. The proposals must be in writing and must specify the quantity and quality of the material to be furnished, and the price per unit for each item. The proposals must be accompanied by a cash deposit of \$100.00, which will be forfeited if the contractor fails to execute the contract within the time specified. The city reserves the right to reject any and all bids.

By order of the common council, A. E. BADGER, City Clerk, Dated Janesville, Wis. June 5, 1895.

Will Insist on an Advance.
Trenton, N. J., June 11.—All of the ten sanitary potteries in this city shut down yesterday morning, and all day long their 500 workmen were in secret conference, deciding upon a new scale of wages to be demanded of the employers. The men decided to ask Thursday an average increase of 20 per cent over the wages they are now receiving. If the employers refuse to agree to the new scale, the men will go on a strike.

St. Louis Elevator Shortage.
St. Louis, Mo., June 11.—One hundred and fifty-eight thousand bushels of wheat and 40,000 bushels of corn is the shortage discovered by the recent weighing up of the St. Louis United elevators. The exact amount necessary to balance this shortage and to pay running expenses, interest, insurance and taxes, is \$275,000—just the amount borrowed by the directors ten days ago.

For Johnson and Zimmerman.
Toronto, Ontario, June 11.—The Toronto Ferry Bicycle association offers \$5,000 for three races between Johnson and Zimmerman, to take place in Toronto on three different days, each man to post \$2,500 with the Toronto Ferry company. The offer is open for ten days.

Guard Their Workmen.
Warren, O., June 11.—The strike at the tin mill in Niles remains unsettled. New men, closely guarded, were put in the places of the strikers yesterday.

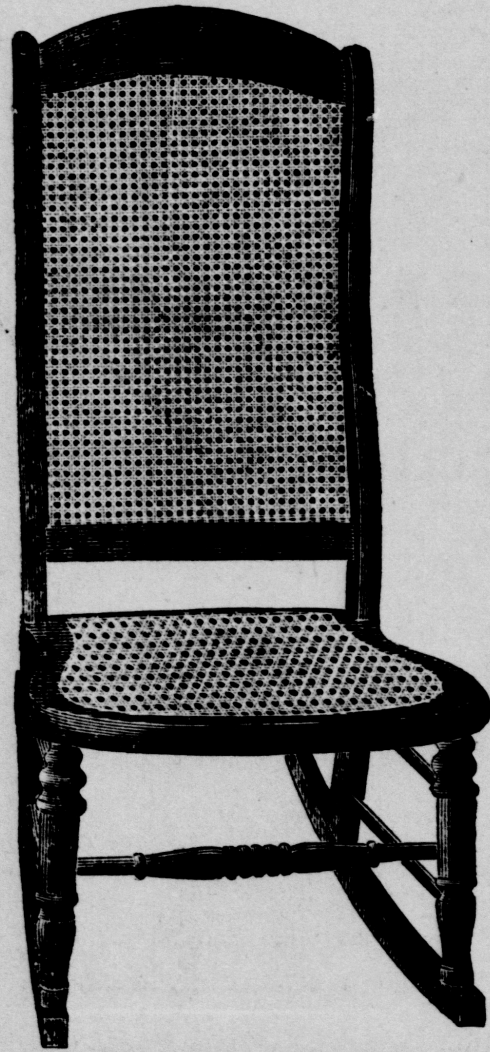

Gold Found in Oklahoma.
Guthrie, O. T., June 11.—For several days rumors have been current that gold has been discovered in paying quantities on Boggy creek, fourteen miles southwest from Arapahoe county. Hundreds of men are on the ground staking off claims. Specimens of the ore, which have been tested by an experienced miner and assayer, show them to be rich with precious metal. Reports say that people are coming in and staking out mining claims at the rate of 100 a day. Prospectors report fabulous finds and that the people are confident they have struck one of the richest gold fields ever found.

Taylor to Go Back to Pierre.
Pierre, S. D., June 11.—It is announced that W. W. Taylor, the defaulting state treasurer, will be in Pierre within a week. He will come voluntarily and with friends. The Benedict part of the case in the United States court will probably be postponed until after Taylor arrives.

Hitt Is Able to Sit Up.
Washington, June 11.—The improvement in Representative Hitt's condition continues. Yesterday, for the first time since his illness began, he was able to sit up for a time in a chair.

Twelve Hundred Men Out.
Pittsburg, Pa., June 11.—The demands of the boilermakers for a 10 per cent advance having been refused by the manufacturers, the men decided to call a strike in all plants. About 1,200 men are out.
